## **EMOA Committee Meeting Report – Mar 31<sup>st</sup> 2008**

**Satellite Clubs** - Discussion took place at the end of February between representatives of Sport England, Derbyshire Sport, Nottinghamshire Sport, DVO and NOC which resulted in Sport England informing EMOA that an award was to be made to fund the work over 2 years. In association with funding from the Councils this meant the majority of the costs would be met. As chairman of EMOA Derek Gale has reviewed the terms of the grant documentation and is concerned about some of the phraseology (the implication being that EMOA would be subject to claw back of the funds for 21 years). The document is to be reviewed with British Orienteering to make sure the full implications are understood before any signatures are added. The date of the project would be May 2008 – May 2010.

**Junior Home Internationals** - A report had been received of the Junior Home Internationals in Northern Ireland at the end of 2007. A number of EMOA members were selected and performed well (W14 - Jenny Evans (NOC) - 1<sup>st</sup>; Elizabeth Parkinson (NOC) - 9<sup>th</sup>; W16 - Mairead Roche (LEI) - 4<sup>th</sup> - Fiona Claxton (NOC) - 8<sup>th</sup>; M16 - Peter Hodgkinson (NOC) - 2<sup>nd</sup>). They were all part of the victorious England team.

**Treasurer's Report** - Dave Bennett informed the meeting that there may be an increase in the fees required by the English Orienteering Council. This was due to increase in transport fees and possibly funding reduction for British Orienteering.

**Fixtures Review** - All of the major events due to be held in EMOA were reviewed. These included:

- 2008 British Schools Score Championships - NOC - Sherwood Pines (11<sup>th</sup> October) - All progressing successfully
- 2009 British Elite Sprint Championships - NOC - Nottingham University Campus - (9<sup>th</sup> May) - All officials appointed and site meetings held. Map is progressing.
- 2009 British Middle Distance Championships - LEI - Cademan and Thringstone Woods (10<sup>th</sup> May) - All progressing and controller visited area and agreed it was fine. The main item of contention around these events was the actual franchise arrangements for them. Are they BO events and thus funding is to them, or do EMOA get a levy? To be discussed.
- 2009 Compass Sport Cup and Trophy Final - LEI - Ratby? (18<sup>th</sup> Oct) - Meeting scheduled to take place on area shortly. This would be a level 1 event in new structure.
- 2009 Veteran Home Internationals - DVO - Longshaw and Eyam (14/15<sup>th</sup> Nov)
- 2010 Midland Champs - LEI - Belvoir (21<sup>st</sup> Mar)
- 2011 Compass Sport Cup and Trophy Final - DVO - (Date and venue to be arranged)
- 2011 British Schools Orienteering Champs - EMOA to host
- 2013 Yvette Baker Trophy Final - EMOA to host

**East Midlands League** - This years league seems to be progressing well. In 2009 there will be the new event structure, so we will need clubs to clearly designate the events they wish to see included in the League and those events will need to include White to Brown courses.

**Rules Group - New Event Structure** - The new event structure is to be adopted in 2009. There will be 3 layers of events - National, Regional and Local. National events will include the British, British Relay, British Night, British Sprint, British Middle, the JK and a minimum of 3 and up to 6 Area Championships, plus the Compass Sport Cup and Trophy Final. For all individual events the IOF age classes will be used. The controller for these events will be a Grade 1 controller appointed by the Major Events Panel.

Regional events will be the best quality events but without the prestige of level 1 events. The intention is that these should be competitive events and that these will use the colour coded system. An extended colour coded system ranging from White to Black is to be introduced. These courses may be mapped to age classes. These will need a Grade 2 controller appointed by the Regional Association.

Local events will encompass a wide range of events with the key aim being participation. These will encompass the traditional colour coded events through to limited events for training, summer leagues, etc. Clubs will have the freedom to select the format to suit the needs of their membership. These events will be controlled by a Grade 3 controller appointed by the Club (though in the case of a summer league it may be one controller to oversee the whole series).

Discussion took place on the process being adopted for this new structure and whether it made sense. There were differing views at EMOA committee as to whether it will be successful in achieving what it is setting out to do and whether it may even lose existing members.

**Removal of Split Times** - The IOF have stated that they do not expect split times to be removed from results if a control is wrong. The BO Rules need adjusting to reflect this but for now will say that removal can take place at lower level events, though this should only be after serious consideration.

**Minimum Age of Controller** - A question was asked whether there should be a minimum age for a controller. It was agreed at Rules Group that it was competence that was being judged and if someone was competent in the eyes of the approving committee, there should be no minimum age limit.

**BOF AGM** - the 3 people elected as British Orienteering Directors were Martin Ward, Ed May and David Nicholas. In addition the proposed levies based on the number of competitors at an event was passed.

---

## EMEWS

---

**Coaching Committee** - A lot of time was spent discussing coach education. There is now a qualification pathway with 2 alternatives. The education / schools route which will have a 2 level approach aimed at school teachers. Or a route for those in the sport itself which will have a level 1 coach certificate (not the same as the current one) and a level 2 certificate which is more like the entry level qualification for club coaches today.

The coaching team are trying to make sure that all the coaches in East Midlands are not just qualified, but licensed to practice. To do this they need to have the coaching certificate but also other things such as attended a First Aid Course, had a CRB check through BO, etc.).

**Development** - There is money available for development training (e.g. coaching, planner, controller courses). Clubs should ask their Regional Development Officer to get access to this funding.

**Coaching Course** - There will be a level 3 / 4 coaching course held in the Lake District at the end of September. Clubs are encouraged to send coaches needing qualification.

**Map Group** - There is intended to be a mapping course put on for LOG on 12<sup>th</sup> April.

**National Forest** - A separate report is available below. The EMOA committee thanked Roy Denney for all his work in this area.

**EMEWS** - There was no obvious event to get EMEWS out this time, so Mike may try to take to a summer league event or two.

**Sport Ident Meeting** - Derek Gale attended a meeting with the Sport Ident folk at the JK. There were some important points to note. There is now a V9 dibber which won't work with some of our older boxes. If you buy the V9 dibber you need to be aware of this. The implication is that shortly there may be a demand as folk move to the new dibber to replace all the old boxes (approx 80 of them). This is quite a few thousands of pounds of equipment.

At a few recent events we have run out of dibbers (often when there is a long walk to start / back from finish). If we replaced with the new dibber there will be problems. One thing may need to do is to provide a clear station using the old dibber near exit from car park. That way at least someone would know the problem if it didn't clear.

There is also a change in the newer boxes in terms of programming modes to make things easier so that boxes in effect are always "on" when started by someone dibbing. Reduces the need for programming these boxes. However, this is in a different programming mode to existing boxes so people need to be aware of how to get in to the old mode for older equipment.

**EMOA Website** - the committee liked the new EMOA website that was now available.

**Electronic EMEWS** - One way we could keep costs down is by distributing EMEWS electronically. Mike does this today to a small number of folk. If anyone else would like to be included in the electronic distribution list (and not get a paper copy) let Mike know at the email address on front of EMEWS.

**Committee Meetings** - A reminder that any member can come and attend the EMOA committee meetings if they wish to do so (though they cannot vote). Next meetings are held at Clifton Village Hall starting at 7:30pm on 2<sup>nd</sup> June / 28<sup>th</sup> July.

-----0000-----

### **National Forest Situation**

This has been a difficult year for the National Forest. They have seen some change of line up at the top and their tender scheme fell foul of EU requirements and could not operate. They did however still have monies to invest into the project but had to do so by different means which effectively largely meant promoting the Forest and the use of and provision of facilities within existing schemes.

They have just paid over £3000 to LEI to act as seed corn to promoting Permanent Orienteering Courses (POCs). By using this funding and investing over 100 hours of volunteer labour LEI have obtained matched funding or investment in kind from the County Council, Woodland Trust and Forest Enterprise.

New POCs are being installed as we speak at Beacon Hill, Martinshaw Woods, Sence Valley Forest Park, Donisthorpe Woodland Park, Moira Furnace / Plantation and Snibston Discovery Park. These will be widely promoted both by the landowners and the Club and will be used in conjunction with 5 other new POCs to provide both a means of helping local authorities work on their Public Obesity Agenda and as a way of providing a step up for schools who are promoting their sport by way of orienteering.

The National Forest are also looking at creating a long distance trail throughout the Forest which will include much of South Derbyshire and NW Leicestershire. This is under development but we are proposing that this be a circular trail, 100 miles long, providing the ability to return to your starting point. This would be good for local economies as it encourages people to make overnight stays and to fall in line with current buzz, it has a minimal green carbon footprint or words to that effect. Further however we hope to promote the Olympic flag type design in that all the way round the trail, short loops off can be advertised to take in nearby beauty spots or facilities and would hope to include all orienteering sites with POCs.

Roy Denney

-----0000-----

## **Peter Bourne 1940 – 2008**

Without Peter's involvement in NOC, it wouldn't be the successful club it is today. As Chairman during the 1980s, Peter was responsible for steering the club through a period of intensive development, from a tiny collection of enthusiastic individuals to a vibrant and energetic organization. It was he that put the substance to the maxim: 'NOC may not have the best orienteering areas in the country but it can stage the best organised events.

It is often said that life begins at 40. This was certainly the case for Peter's life in orienteering, which started in 1980 when Robin Stansfield of SYO persuaded the Bourne family (Peter, Ros and their children, Simon and Chris) to go to an event at Sandal Beat Wood near Doncaster. Peter's involvement with NOC started a year later at the infamous Bestwood event when the map, delivered from the printers the day before, had not only the green and yellow colours the wrong way round but also was at the wrong scale of 1:6666. Despite (or possibly seeing an opportunity to resolve) these problems, the Bourne family weren't deterred but joined NOC to become enthusiastic, dedicated and committed members.

Typical of his enthusiasm for all in which he was involved, within two years of joining NOC, Peter was its Chairman. He led by example, turning his hand, extremely successfully, to organising, planning and controlling, in particular the organisation of the 1985 British Relay Champs. in Clipstone (now Sherwood Pines) and the planning of the 1991 JK Relays & 1993 British Schools Champs in Clumber Park. He was also responsible for initiating a highly successful scheme to develop permanent courses throughout Nottinghamshire.

Coming from an athletics / cross country background, Peter was highly competitive and wanted to succeed at the highest level. Having run at county standard for Sheffield University, Leicester Corinthians and Notts. AC (with a 10 miles PB of 50.06), he took up orienteering with enthusiasm and determination. Individually he didn't win any trophies (4<sup>th</sup> at JK87 was his best); it was generally agreed with his many friends, often over a glass of red wine, that if only he could navigate as well as he could run he would have been unbeatable. He did, however have success as a NOC relay team member, taking home trophies from the 1990 and 1995 British Relay Champs.

Despite his many commitments, Peter was above all a family man. When the boys were young, he thoroughly enjoyed family orienteering at weekend and holiday events, on one occasion (1984) winning the Mammoth Family Relays. When they were a little older, he relished joining them for mountain marathons at which they were quite successful, he and Simon coming 3<sup>rd</sup> in the 1984 KIMM (C Class) & winning the 1986 Saunders (Wansfell Class), and he and Chris coming 2<sup>nd</sup> in the 1987 KIMM (C class).

In December 1995, whilst running the Calderdale Way Relay over Stoodley Pike, he suffered the first of three serious heart malfunctions, which curtailed his running much more than he would have wished. Following retirement from teaching Chemistry in 2001, Peter and Ros moved from Nottingham to Derbyshire to enjoy more of the outdoor life. They maintained their interest in orienteering. Characteristic of his generous spirit,

they joined DVO so that he could continue to contribute to orienteering by playing an active role in the organisation of local events. DVO's gain was NOC's loss.

Recently, Peter and Ros were often to be seen at events entering the shorter courses. Indeed, on the Sunday before he died, we met serendipitously in the middle of Beaudesert to collaborate in a futile attempt to find an elusive pit. In the subsequent post-run analysis, Peter was vibrant and lively. The news of his death was devastating.

Orienteering in general, and NOC in particular, owe him an enormous debt of gratitude.

Peter Hubberstey (NOC) & John Orton (NWO)

-----0000-----

At the Crich event a collection was made in memory of Peter. I have been asked to include the following "Many thanks to all the orienteers who contributed to the collection at the Crich event. We collected £80 which we have passed to Ros for the Buxton Mountain Rescue Team. Ros was very touched by this and has asked us to pass our thanks onto all those who contributed."

-----0000-----

### **History of the Whistle**

In the last 2 EMEWS I have provided histories of the map and the compass, so what other essential piece of orienteering equipment is there - the whistle.

The whistle is an ancient instrument, apparently originating in ancient China around 5000 years ago (as it appears both the compass and the whistle were both of Chinese origin, maybe we should look to China for the origins of orienteering?). It seems to have originator as Chinese night watchmen used to blow in to the tops of acorns to alert the towns of invading Mongolians.

In ancient Egypt blades of papyrus were held together in between the palms and by blowing on the palms the papyrus leaves would make a loud vibrant sound (much as children do today with long grass leaves).

It appears that whistles made their debut in Europe around the 11<sup>th</sup> century. It is known that bird-bone whistles were played as a musical instrument in Viking Dublin in the 12<sup>th</sup> century. One of the most distinctive whistles is the boatswain's pipe used aboard naval vessels to issue commands and salute dignitaries. It has evolved from pipes used in ancient Greece and Rome to keep the stroke of galley slaves. A medieval version was used during the Crusades to assemble English crossbow men on deck for an attack.

The whistle seems to have found its way in to sporting usage around 1878, when Joseph Hudson of Birmingham, England made the first whistle ever to be used by a football referee. It was also around this time that whistle was formally used to start and stop a football game (allegedly the first time being at Nottingham Forest) - before this referees had used handkerchiefs to attract player's attentions.

---

## EMEWS

---

In 1883, the London police force made it known that it was seeking an alternative noisemaker to replace the heavy, cumbersome hand rattle the officers had been using. Hudson invented a light, compact whistle that produced two discordant tones that could be heard for more than a mile. It was immediately adopted and the same design is still in use today. By 1884 Hudson had perfected the whistle and released the most successful model to date, the "Acme Thunderer" (the first ever pea whistle).

The whistle works by causing the smooth flow of air to be split by a narrow blade, sometimes called a fipple, creating a turbulent vortex, which causes the air to vibrate. By attaching a resonant chamber to the basic whistle, it may be tuned to a particular note and made louder. The length of the chamber typically defines the resonance frequency. A whistle may also contain a small light ball, usually called the pea, which rattles around inside, creating a chaotic vibrate effect that intensifies the sound.

-----0000-----

### Winter training in Trondheim

I have been living in Trondheim for over a month now and still have a couple of weeks until I start my new research job at NTNU, having just received the Jan/ Feb edition of EMEWS I thought it would be nice to let you all know what a typical winter training week for the elites at WING OK looks like:

**Monday** -am. Cycle 40 minutes over to Luftkrigskolen (the military school), I have special tyres on my bike with metal dobs which means I can cycle over all the ice and snow no problem.

Luftkrigskolen training starts at 08:30. 30 min warm up, running on a treadmill or playing basketball or indoor hockey. Then 1 hr of running technique drills with the coach Frank, pretty high intensity, some hurdles involved, this is followed by 30 min high intensity circuit training, jumping & exercises for stomach, back & legs. After all this we often have a nice big lunch in the military canteen.

pm. Night orienteering. Usually a middle distance course, at the moment we are limited to sprint type maps due to the snow but the planners often throw in some map memory or Micro (false controls) to make it more challenging.

**Tuesday** - Not normally any organised training with the club but I usually go cross-country skiing near where I live, meet someone for an easy/ long run or take the opportunity to rest & recover.

**Wednesday** - am. Usually I go for an easy run in the morning but I try to be fresh for the evening intervals session, apparently the "most important session of the week."

pm. Intervals at a 230m indoor track around an ice rink. We usually do 20-25 minutes easy jogging outside first, then 3000m on the track at medium tempo, some strides then something like 6 x 1000m starting every 5 minutes. The track is not so good for running good times, the corners are tight & banked a little and it's usually pretty busy but some guys in our group still manage sub 3 min 1K reps.

**Thursday** - am. About 1hr easy jog with my neighbour and then usually have to shovel some snow from the driveway ~15 mins!

pm. Trappespenst. A very strange session at Strinda High School, 20-25 min jogging outside then 10 min running technique drills. The main part of the session takes about 30 min and involves doing fast high knees, sprinting, hopping and jumping up 3 or 4 flights of stairs, lots of times! We do 20 min strength & conditioning in the sports hall to finish.

**Friday** - Skiing, running or rest. This morning I ran for 1hr42 really easy tempo with a couple of guys from the club and then washed some dishes and watched some running videos on You Tube. At the end of the long runs I do 5 or 6 x 60m strides as recommended by Per Arne, one of the WING coaches.

**Weekends** - We usually have a couple of club training sessions over the weekend. Usually one orienteering technique and one 2hr ski or run. The skiing is usually classic style and my technique is gradually improving.

Once the snow melts in the spring we will do a lot more orienteering technique, actually we have our first Tio Mila training camp in a couple of weeks so I will start running with the map in my hand a little more often. Altogether I'm training about 10 -15 hours a week at the moment but when I start my job in March and the races get closer I guess this will decrease.

I log my training online at:- [http://www.attackpoint.org/weeklyactivity.jsp/user\\_2701](http://www.attackpoint.org/weeklyactivity.jsp/user_2701)

Helen Palmer

### **East Midlands OA League - 2008**

Welcome to the East Midlands league for 2008. This year again all C4 events that are designated to have all of the colour coded courses will count towards the league. So far we have had 5 events:

1 = Rough Park      2 = Calke Abbey      3 = Crich Chase      4 = Fermyn Woods  
5 = Thieves Wood

There are still the following events to go (subject to changes due to access, etc.):

Apr 13 <sup>th</sup> - Bourne Woods (LOG)	May 18 <sup>th</sup> - Hardwick Hall (DVO)
Jun 15 <sup>th</sup> - Burbage Woods (LEI)	Jun 22 <sup>nd</sup> - Carsington Pastures (DVO)
Sep 28 <sup>th</sup> - Kedleston (DVO)	Oct 5 <sup>th</sup> - Stapleford (LOG)
Oct 12 <sup>th</sup> - Charnwood Forest South (LEI)	Nov 2 <sup>nd</sup> - Bestwood (NOC)

---

## EMEWS

---

Dec 14<sup>th</sup> - Whitesprings (DVO)

Dec 21<sup>st</sup> - Walesby (NOC)

Dec 28<sup>th</sup> - Beacon Hill (LEI)

The table below shows the top people (those who have scored more than 1000 points) with at most the top ten people being shown for each class.

### White Course - Boys /Men

### **Midland Champs**

I know I just provided the 2007 Midland Champions in the last EMEWS but the 2008 Midland Championships were held at Budby on 10<sup>th</sup> February (some folk only had a short year as Midland Champions). Glorious weather made for a great event. The following are the Midland Champions from EMOA (from what I can see in the results):

M12	William Parkinson (NOC)	W12	Hannah Horsewill (NOC)
M14	Ben Beresford (DVO)	W14	Victoria Littlewood (NOC)
M20	Liam Harrington (LOG)	W16	Elizabeth Parkinson (NOC)
M21	Petr Basus (NOC)	W21	Mairead Rocke (LEI)
M40	John Duckworth (DVO)	W35	Claire Gale (DVO)
M45	Nigel Mockridge (NOC)	W60	Liz Godfree (DVO)
M50	Paul Addison (DVO)		
M55	Michael Napier (NOC)		
M75	Donald Moir (LEI)		

Apologies to those I have missed.

-----0000-----

## Fixtures

This fixture list is intended to list all major events in the UK, and all East Midlands events. It includes all the information available to me about the event at the time of going to press. Unless otherwise stated, District events offer entry on the day (EOD) to a range of colour coded (C4) course with start times from 10:30 to 12:30. Local events (C5) will only have a limited range of courses. Regional and National events (C3 & C2) provide a range of age related courses and are normally entered in advance using a Standard Entry Form (SEF); entry on the day (EOD) will usually be limited and more expensive. Most will offer a limited number of colour-coded courses for EOD. Cheques payable to organising clubs given at beginning of details, if not specified.

The OS map reference is either the car park or point from which the event will be signposted. The list is based on BOF registration, but events are sometimes cancelled. If you are uncertain of whether an event will be on, check with the organiser. The editor takes no responsibility for wasted journeys.
